That "Address."

In an extra issued from the Danville Intelligence office, "sent free of charge," and bearing date of the 21st Sept. 1866, published by Thos. Chalfant, the fraudulent candidate for Representative from this District, we find a so-called "Address," intended to influence voters of Columbia and Montour in favor of Mr. Chalfant, who claims to be the regularly nominated candidate. This "Address" is signed by Joseph H. Campbell and John McWilliams, Representative Conferees from Montour, and witnessed by William Yorks and Jacob Shellhart. It pretends to refute the statements in the letter of Columbia county Democrats to the County Committee; and although it does not in a single point succeed, yet we will direct attention to a few of the glaring heresies it advocates. It says, "We never conceded to Columbia county the Senatorial candidate."

Now we say to Messrs. Campbell and McWilliams that their conduct was very improper if they thought Montour entitled to the Senator. And we ask them why did he—Mr. Campbell—write in the cry of Mr. Chalfant that the Columbia county resolution, instructing her Conferees to vote for the Montour candidate only in case Montour would vote for Columbia's candidate for Senator, was unequalled for highly unjust, inasmuch as it cast a reflection upon the honesty of Montour citizens, and that too at a time when Montour had agreed to stand by Columbia? And further, if Montour had a claim for Senator, "as strong, if not stronger than that of Columbia, or any other county in the District," why did Mr. Chalfant represent to the Columbia Conferees that, it was not the desire much less the intention of Montour to have Mr. Dean nominated, and that when the Montour county Convention instructed the Senatorial Conferees to use their influence for Dean, they did not intend more than a compliment to Dean, and that in truth it was done merely for the purpose of "letting him (Dean) down easy, after I (Chalfant) had driven him to the wall?" We say we will all this deception practiced by Mr. Chalfant and his friends if Montour had a just, or in the words of the "Address," a "stronger claim than that of Columbia"? No, gentlemen, the people of Columbia cannot be duped into the support of Mr. Chalfant by carloads of his "extra, sent free of charge," containing such fallacies as this. Mr. Chalfant and his friends never hinted that Montour had such claim. They positively pledged Montour to support Columbia and conceded our right. If, as they now say, they were unable to control the Senatorial Conferees, they should not have bound themselves, for they well understood that only upon condition of Montour siding with Columbia to secure the Senatorial nomination could Mr. Chalfant be nominated, and he was only nominated upon that condition; the condition having not been complied with, Mr. Chalfant's nomination became at once void, in accordance with the direction of the Columbia Convention. And there being no Democratic candidate, Hon. Levi L. Tate, Columbia's selection, becomes the regular Democratic nominee.

But, again, while Mr. Campbell attempts to deny that pledges were made, and treats with contempt the idea that he, Chalfant, and his friends, could influence the Senatorial Conferees,—an idea which, had our Representative Conferees known Campbell, Chalfant & Co., would have been contemptuously hurled back to them when the pledge was made,—yet he positively asserts that a pledge, for the action of their Senatorial Conferees, "that after supporting the nomination of Mr. Dean for a reasonable time, in accordance with their instructions, said Conferees, would vote for the nominee of Columbia," was made. And Mr. Campbell says, this was "redeemed in both letter and spirit." This is a positive falsehood, for the Montour Conferees, after balloting one hundred and twenty-one times, during a contest of two days, did NOT CAST A SINGLE VOTE for Columbia county, but upon the final ballot, by which Mr. Jackson was nominated, both Montour Conferees voted for Jackson; and for this we do not hold Mr. Dean nor his Conferees responsible, but Mr. Chalfant, by whom misrepresentations were made.

This is a candid analysis of this "Address," founded upon a basis manufactured since Tate has been nominated as a candidate, or based upon mental reservations of Mr. Chalfant and his friends, while making their pledges.

## Attention, Electors.

The Radical Rebels are trying to subvert the law of the land as decided by the Supreme Court of the State. They are striving to resist the right of thousands of citizens to exercise the privilege of voting. They aim at the franchise of a large portion of the people upon the pretext that they are guilty of an offense of which they have not only never been convicted but for which they have not been, and never will be, tried. These new rebels against the laws, these despotic enemies to the freedom of the white man, had better not undertake to put their contemplated fraud into practice; they must remember that the law is against them; the highest judicial tribunal in the State has declared that no man can be deprived of his right to vote, simply because his name is found on a Provost Marshal's list of "Deserters." The Supreme Court has decided that a man must have been tried for and convicted of desertion, and the punishment of disfranchisement adjudged by the proper tribunal, before he can be deprived of the right to vote as being a deserter. That Court has also further decided that Judges of Election cannot try a man for desertion, but are bound to take his vote, unless evidence of his conviction as a deserter and the adjudication of the penalty of disfranchisement by the proper tribunal, in his case, are laid before them. Hence, we warn all election boards against being influenced by the foul schemes of the Radical Rebels who are plotting to overturn the laws of the State. We say it in all earnestness and with a full determination to make good our words. EVERY ELECTION OFFICER WHO WILL DISFRANCHISE ANY SO-CALLED DESERTER, WHO IS OTHERWISE QUALIFIED TO VOTE, WILL BE PUNISHED TO THE UTMOST EXTENT OF THE LAW.

## Ulysses Mercur.

MERCUR, the negro suffrage candidate for Congress in this District, made a speech in the Court House, at this place, on Wednesday evening of last week, in which he declared the negro entitled to a vote and all the privileges enjoyed by the white man. He stated that there were negroes in the District of Columbia more intelligent than any person in the room in which he was speaking. Of course he included himself. Let it be ascertained that he should admit, even if it were the case, that the negroes in the District of Columbia are more intelligent than his constituents or even himself? This was said in part to justify his votes on the negro suffrage and Freedmen's bureau bills. Those of his Abolition hearers who are not quite as black as some others, declare, since the meeting, that they cannot sustain his negro suffrage principles, no difference if the negroes did enter the service in defence of the country. They entered the army through the force of circumstances, at large bounties, and promises of light duty, which promises were well kept by the Abolition army "pimps" who commanded these "pet lambs." MERCUR did not seem to want votes, and in our opinion, he will fall considerably short of his vote of 1864. He should and will be defeated, no two ways about it.

The Pipe-layers endeavor to make a point against our nominee for Representative by saying, through their little organ, that he was not the choice of the county because, as they say, he had only six townships. This is not the fact. He received the majority of votes in the Convention, and it naturally follows that he must have been the choice of that body to have become the nominee. It is a fact, that Col. TATE was second in strength, when we compare the real strength of the three candidates for the office of Senator. He had more votes than McNeill; and, as a matter of right, the Delegates instructed for Mr. McNeill, after he did not come into the Convention, were at liberty to support their next choice, which they did, and the result was, that Col. TATE received the majority of votes, and was made the nominee for Senator. Yet the clique, which are trying to smash things in this county, declare in their little organ that Col. TATE was not the choice of the Convention. All this will do for them to talk about; but not one of them would refuse to take a nomination under similar circumstances, and afterward claim to be the choice of the county.

No one but a native born citizen of the United States is eligible, by the Constitution, to the Presidency. No naturalized German, Irishman, Englishman, Scotchman, Welshman or other foreigner, can be made President. The Rump amendment to the Constitution, which is an issue at the coming election, makes all the native born negro citizens, and consequently they are made eligible to the Presidency of the United States. Negroes are thus preferred to, and placed above all intelligent foreigners, notwithstanding many of the latter have resided in the country for fifty or sixty years. Germans, Irishmen, Welshmen, will you vote to make negroes eligible to an office which is denied to you?

For five or six years the Radicals said that any one who spoke disrespectfully of the President of the United States was "disloyal." As long as they had the power they persecuted in the most shameful manner all who dared to give an honest expression of opinion in regard to the policy of the Chief Magistrate. Now, they not only abuse the President, but openly insult him. If their utterances were true, when they acted in the disgraceful manner we have indicated, they were guilty of "treason" and "should be made odious." This the people will do at the ballot-box!

The whole Democratic Ticket of Columbia county, and Districts with which she is connected, will be elected by handsome majorities; in spite of the Pipe-laying sheet, published by our friend, Mr. Little, from the one-fourth Johnson, and three-fourths Abolition press of this town. The Democracy of Columbia are always true to themselves; Hon. Levi L. Tate especially, for the reason that the Pipe-layers have made war upon him, will receive an extraordinary majority.

## Hon. William Elwell.

HON. WM. ELWELL, the candidate of the Democracy of this District, is daily and rapidly gaining friends from out the Republican ranks. Judge MONTGOMERY is the Representative of the black man. Look at his course relative to the negro soldiers, and compare it with his vote on the bounty bill for the "white boys in blue." He has been the means of the "white" soldiers receiving a small, insignificant bounty, say one hundred dollars. Yes, if his vote would have decided the matter, they would get no bounty at all, for he voted against the bounty. He voted for negro suffrage, the Constitutional Amendments, Civil Rights Bill, and the Freedmen's Bureau Bill, all of which bills the President returned to the House with his veto messages, fully and clearly setting forth his objections to the bills. The Radicals determined to have these bills become a law, in spite of the opposition of the President, they passed them over his head by a two-thirds party vote—MERCUR voting with the Radicals on every question. Will the people of this District endorse his course? Will the soldiers give him their suffrage? Will the farmers, the heavy tax-payers generally, assist in his election, since his having legislated a large sum of money out of our pockets to support the negro in filth and idleness?

There is good reason to believe that the Columbia of this place was established with the intention of becoming a Democratic paper after the election. "This is the natural explanation of its course and of the conduct of its managers and their associates," as follows: Brockway, Ryerly, Little and the Freezes. It was claimed, at first, that the paper was established to perform a certain mission, and that was to revolutionize this Congressional District and defeat MERCUR, the Abolition candidate for re-election to Congress. How well it is performing that job, the result at the polls on the 9th of October will explain. During the whole Summer certain Democrats were busily soliciting subscriptions and advertising for that establishment, in an underhanded and sneaking manner, thus injuring the business of their own Democratic editors. Why was this? Simply because these men expected to take control of the paper ere long. They were not contented with one Democratic paper, however much they expressed gratification over the consolidation of the DEMOCRAT AND STAR. For our part, we care little how many papers are printed;—misery loves company;—as publishing a country paper is a thankless, sinking business, to make the best of it.

Thomas Chalfant, his Conferees, nor his friends, who accompanied him to this place on the day of his Conferee meeting, did not attend the meeting of Senatorial Conferees at Bloomsburg, on Tuesday, the 4th of September, 1866. This was the day appointed for the meeting, and not one of those gentlemen were present. It is true, Mr. Campbell did attend on the second day, but arrived when it was too late for him to assist in the nomination of Columbia County's choice, even if he had been disposed to do so. No one supposed that the Conference would last two days. That was not the intention. We refer to this matter only because we noticed it repeatedly stated in the Chalfant organs last week that they, the Representative Conferees, had fulfilled every pledge made, one of which was that they would be here and use their influence for the nomination of Senator from Columbia County. Now, they did not mean to make their pledges good, or else they knew they had no influence with the Montour Senatorial Conferees, hence they stayed at home, to allow their agents to do their pipe-laying work, in defeating Col. TATE.

COURAGE, DEMOCRATS!—The signs of the times are auspicious. The political atmosphere is becoming daily more clear and transparent. The Democratic masses everywhere are closing up their ranks and preparing for the mighty conflict. Thousands of honest Republicans are breaking loose from the trammels of their party leaders, and are uniting with their Democratic neighbors in the glorious work of restoring the Union and saving the Constitution from the impious and ruthless hands of the spoilers. The skies are bright, and all that is wanting to ensure success is for every Democrat to do his whole duty from now until the polls close on the day of the election.

The Abolition party in this county did the best thing they could have done for the Democratic party, when they imported Senator LANDOX, of Bradford, to this county to make speeches for their cause. He has made several votes for our candidate for Congress, JAMES ELWELL, to our certain knowledge. We would suggest to the Chairman of the Democratic Standing Committee of this county, that he engage LANDOX to thoroughly stump this county. He is of the most radical stripe; goes the whole length for the negro; and is not content with anything short of negro suffrage. Besides his radicalism he is an intolerable blockhead.

Thomas Chalfant, editor of the Danville Intelligence, labors hard to explain his position before the people of this District as a candidate for Representative. The facts contained in the "statement," as published in our paper, relative to the Conferee meeting and the conduct of the Montour men towards Columbia County, he cannot successfully contradict. The facts in the case, it would seem, he nor his friends do not pretend to deny; although Mr. Chalfant starts out in several articles in his paper, promising to explain the whole matter away, but does not even make what might be considered a creditable attempt to disprove one single point in the "statement," signed by over two hundred Democrats in the county.

George D. Jackson, the candidate for State Senator, will be elected by a handsome majority. He is fit for the position—has had considerable experience as a legislator—and will receive an increased majority this Fall. The office will be filled by a man in whom the interests of the District can be placed with safety. He will be an able and responsible guardian.

## Representative.

The Danville Intelligence harps exceedingly about the mistaken idea that Mr. Chalfant is the regularly nominated candidate for Representative. Mr. Chalfant had only a conditional nomination as was well known by himself and so declared by the Conferees. The conditions were not complied with and there was then no candidate in nomination by the consent of the Columbia County Conferees, and it is for this reason—to place a candidate in nomination—that the Conferees requested the nomination of Col. TATE. For the Conferees of Columbia to consent to the fraudulent acts of Mr. Chalfant, and say he is the regularly nominated candidate, would be a gross violation of the trust given in their hands by the County Convention.—The nomination of Col. TATE is strictly in accordance with the will and direction of the Columbia County Convention. LEVI L. TATE is the only properly nominated Democratic candidate for Representative. He is the man for whom every Democrat must vote if he would accept the motto of the Campaign, "stick to the ticket, the whole ticket, and nothing but the ticket."

E. H. Little, Esq., of this place, is editing a Campaign paper for a certain clique in this and Montour County. Stephen Miller & Co., of this town, are announced as proprietors. They managed to give birth to the paper, on Saturday afternoon last, about 3 o'clock. It was only an half sheet, of the Columbia size. The editors seem to forget every issue but the Representative question; on that issue they are going their whole length for the Montour County man, and opposing Col. Levi L. Tate, the choice of Columbia County. Through misrepresentation and deception they hope to succeed, but we rely upon the good judgment and decision of the people of this county at the ballot-box, for the success of the whole Democratic ticket, as it appears at the head of our paper. "We will see what we shall see."

Mr. Little, editor of the Campaign, in his address to the people says, "We (meaning the Democratic Party) woke up in the morning and found that we were without an organ." This is an intended falsehood. Mr. Little knows that both the Democratic organs, the BERWICK GAZETTE and the DEMOCRAT AND STAR, are of the pure Jersey blue Democracy; believing that men appointed and elected by the people are the servants of the people, and are in duty bound to obey their instructions. Hence, the clique woke up and found the Democratic organs of this county unwilling to support any candidate except those nominated by the people. Corrupt politicians and money shall not be allowed to control the Democratic Party. We will see.

The Fulton Democrat, in noticing the fact that the Sheriff of that county, in obedience to orders from Harrisburg, has inserted the unconstitutional Deserter Law in his election proclamation, says: This he has done out of the slightest shade of belief that the law is of any effect, but simply out of obedience to orders. We have already said all that is necessary for us to say about this law. We shall treat it as the Supreme Court require us and all law-abiding men to treat it—as a nullity and dead letter. And we have only to say that the election officer of Fulton county who rejects a vote under the sham pretext of this law, will be treated as a violator of the most sacred rights of the citizen. Let any Abolition Judge or Inspector just try the experiment, and our word for it he will find laws enough on his hands before a week thereafter to satisfy him for one year at least.

The Pipe-layers who want to break up the great Democratic Party of the country, and who succeeded in defeating the will of the Democracy, as expressed in their late County Convention, are trying to twist out of the matter in a manner that is really more distressing than amusing. Their latest dodge—that of printing at the office of the Columbia, a mongrel sheet in the interest of certain abolitionists—of the men who bro't into Columbia county the soldiers who carried off to prisons and otherwise grossly maltreated numbers of our most respectable citizens—this dodge of the new paper is, seriously speaking, abominable. No argument is necessary.

The Democracy will give Col. TATE such a majority as will, on a certain fine morning soon to come round, lift them out of their boots.

The men who look after Mr. Chalfant's interests in this county, through hard pleading and the expenditure of much time, have succeeded in getting some TWENTY-FIVE persons, out of the large number who have tendered their support to Col. Tate, to agree that their names might be withdrawn from the list as published in our last paper. We have had conversation with several, whose names appear in the "recantation" list published in the Campaign, and they have invariably informed us that they will vote for Col. Tate, notwithstanding they allowed the publishers of the Pipe-laying sheet to use their names. This was "the last kick."

Our most esteemed townsman, Stephen H. Miller, as will be seen from notices published elsewhere in this paper, has taken upon himself the toils, troubles and responsibilities of a journalist. Mr. Miller is well-known for his business enterprise and general literary intelligence; and while according to him, and the persons associated with him, the usual editorial courtesies, we are compelled to say that we would rather he had not been obliged to have his new paper printed on a press, the encouragers of which wanted to hang him two years ago. How are the mighty fallen!

Col. Tate has bolted the ticket in Columbia county, and is out as an independent candidate for Assembly.—Hawdon Sentinel.

## To the Electors of Columbia and Montour.

FELLOW CITIZENS: In the progress of this campaign I deem it proper to again address you upon the Representative question, through the only acknowledged organs of Columbia county, viz: The "Democrat and Star," and the "Berwick Gazette." To my last week's statement, as already before the public, I have nothing to add or subtract, as it is substantially correct in fact, if not exactly in form, and for the truth of its position I challenge successful contradiction. Let it be distinctly understood—and to none but they who wish to pervert the truth, is this appeal necessary—that I am not now, never, were, or ever will be, a "volunteer," for office, although I have VOLUNTEERED in the army, and would again, if requested, to save the Laws, the Union and the Constitution. In a word, I am the only regular nominee of the Democracy of Columbia county for Representative to the Legislature, in the District composed of the counties of Columbia and Montour. Of my election, on the 9th of October, no sane man has the least doubt. It is not a question of success, but simply one of right, and how large will be the majority.

In the same spirit of candor and equal justice, which has characterized my course amongst you in every contest, for over a quarter of a century, as the editor of the pioneer organ of the local interests and Democratic party of Columbia county, I here and now propose to enumerate some of the reasons which have superinduced the existing state of affairs in our political ranks; and to ventilate a few of the individuals through whose agency they were brought about. Peter Ent and the undersigned, it is well known, were candidates for State Senator before the late Columbia county Democratic Convention. Mr. Ent was defeated. Had he been successful, he had his plans laid, and arrangements made, to get the nomination of the District Conferees, and hence, we should have been spared all this turmoil and contention. In short, Mr. Ent and his minions determined to rule the roast, or betray the county. He gave due notification of this intention, before the delegate elections, and declared that if Tate was nominated by Columbia, that Sullivan county would get the Senator. And the result shows that Mr. Ent knew what he was saying and his prophecy will be literally fulfilled.

People of Columbia: I will not weary your patience or insult your intelligence by narrating the *modus operandi*, through which this game was consummated by Mr. Ent and his perfidious conferees. He had several confederates associated with himself in the nefarious transaction, both about Bloomsburg and up the country, all of whom approached us under the garb of FRIENDS, whilst they were then, as now, the active agents and tools of the Danville politicians.

Prominently among them were Charles Conner and Elijah G. Ricketts, besides a small fry in Jerseytown, Greenwood and Bloomsburg. Messrs. Conner and Ricketts are old disorganizers, and original Danville advocates. Over twenty years ago, Mr. Ricketts ran as the Danville candidate for the Legislature against Hon. Thomas A. Funston, and was badly beaten, in which we largely assisted, as the editor of the "Columbia Enquirer," at Berwick, and for which Mr. R. will never forgive us; but has a right to be a Danville man. Charles Conner, some seventeen years ago, was the principal Danville agent, who defeated John McKeenleys, for the Legislature, and assisted Senator Best to destroy Columbia county. He also has a right to be a Danville man.

E. H. Little has assumed the nominal control of a half-sheet weekly, called the "Campaign," issued last Saturday in Bloomsburg, in opposition to the interests of the Democracy of Columbia county and exclusively in support of the Danville political faction. He never was of much consequence to the Democracy of Columbia, and we wish him a good time, and better success with his new-fangled allies. Stephen Miller is announced as publisher of the Danville bantling!

I must again pay my respects to Mr. Peter Ent. Passing by the fact that I have ever treated this gentleman courteously and kindly, he has, in return, as often paid the obligation by deception and ingratitude. We boldly charge upon Mr. Ent, and his particular friends, the miserable betrayal of the Democracy of Columbia, by the violated pledges of the Danville men now, as in former days, when they gave us their first lesson in political infidelity, and intend to "fight it out upon that line if it takes all season."

Regretting the necessity of any appearance of personalities in the elucidation of the Representative question, it seemed necessary to say as much as has been written above, leaving the greater portion of party feeling to its own source, and to the will of the people, of which it is in the end, will be hereafter discussed. In that event, I will add facts, and give names of certain men hereabout in the Danville interest.

LEVI L. TATE.

## The Campaign.

The editor of the Campaign paper of this place should be the last person to prate about "bolters" and "bolter's organs," and set up his Democracy as an example. It runs in our mind that last fall a year ago he was connected with a Democratic Club of this town at a time when there were soldiers quartered in and about this place, and that he made a motion or a request, before the Club, to the effect that the "Constitution and By-laws" of the Club be destroyed, or in other and more mild words, that the leaves containing the Constitution, By-laws and names of Members, be torn out of the book and be carried off. This motion was instantly voted down. Because a few soldiers were quartered here he had not the nerve or moral courage to say he was a Democrat; and fearing that the soldiers might, on examination, find his name on the books as a member of a Democratic Club he desired that the records be destroyed! Yet this is the same Democrat who prates about "Democracy and ticket" through the Campaign, and undertakes to tell you who you should vote for. We think you are competent to judge that matter for yourselves without his little gratuitous advice.

## The Representative Question.

It is due our readers that we define our position on the question of Representative, and give our reasons for pursuing the course to which we are already committed. As far as we are personally concerned, we have no grievances to redress. When we were first apprised of the peridy of our political friends of Montour county, and that the Democracy of Columbia county were determined to maintain her rights at all hazards, the alternative was presented, whether we would stand by the Democracy of Columbia county, among whose people we have cast our lot, or go with Montour, who had basely betrayed and deserted us for the fourth time, in the hour of need? We concluded to go with the former, and assist her in the maintenance of her rights.

We were then in so doing we subject ourselves to the charge of "disorganization." Well, so be it. If refusing to submit to repeated wrongs,—to violated faith,—subjects us to such charges, we can't help it. We stand by the rights of Columbia county!

It is only necessary for us to refer to the record of the Democracy of Columbia county, by Montour during the past eight or nine years. In 1858, Col. John G. Freeze, received the nomination of Columbia county for State Senator. Montour defeated him in Conference. In 1860, Columbia county instructed her conferees to support Hon. M. E. Jackson, of Berwick. Montour defeated him in Conference. In 1863, Columbia county instructed her conferees to support Hon. J. L. Tate, for State Senator. Montour defeated him in Conference, and now in 1866 Columbia, after a desperate struggle for the nomination, presented him again for nomination, and Montour REFUSES TO GIVE HIM ONE VOTE IN CONFERENCE!

It is to be wondered at that she should, after these repeated wrongs, assert her rights? Not at all. And we think every Columbia county Democrat, should aid her in doing so. It will teach men who have been engaged in political trafficking for years, that there should be honor in politics as well as in matters of business. As to the candidates we have nothing to say. Mr. Chalfant, is a gentleman of ability. The same can be said of the other candidates. The question therefore reverts back to the people, and we shall be content with their decision, as it shall be rendered at the ballot-box.—Berwick Gazette.

## "Stick to the Ticket."

This is the true Democratic doctrine; and the Democrats of Columbia and Montour will adhere to it. It was arranged, as all know, that Montour should have the Representative, that county agreeing that Columbia should have the Senator; but after Columbia generously gave the Representative to Montour, she, or rather the Pipe-layers of that county, quietly and coolly ignored the arrangement. There is an old adage that, "when rogues fall out, honest men get their dues;" but this is a different case. It is a case of quarrel between honest men and (political) rogues. Col. TATE, according to the immemorial usage of the party in such cases, has been placed in regular nomination, and the Democracy of Columbia and Montour will see that he is elected.

## Hiester Clymer.

This gentleman is canvassing the State most thoroughly, and is making warm and true friends wherever he goes. He addressed a large gathering of the Democracy and conservative masses on Saturday last, at Sunbury, and on Monday following, at Little York. We had hoped that he would be able to visit this county before the election, but it will be impossible for him to do so. No candidate was ever more enthusiastically received by the great masses of the people, throughout the whole State, than is HIESTER CLYMER, wherever he speaks. His election looms threatening, and there is no doubt of his success.

## Hon. Chas. R. Buckalew in Lock Haven.

This distinguished Pennsylvanian, being a casual visitor to Clinton County and the guest of Theodore Wright, was serenaded on Thursday evening last by his Democratic friends. In response to the great cheering he made a speech in which the great issues of the day were handled with his accustomed clearness, force, and ability. His arguments were backed up by citations of facts from current political history, which gave them that additional weight which a sledge hammer blow is supposed to enforce on apt rejoinders. Senator Buckalew's manner of speaking is exceedingly cool and deliberate, and carries with it the idea of profound self-convinced. No man who gave him attention could fail to be impressed with the grave character of this political canvass, and the importance of a change in the complexion of the next Congress. His speech was well received, and particularly his endorsement of Hiester Clymer and his eloquent appeal for the Union; and it may also be added that it met the high opinion of all fair-minded Republicans who heard it, which is no light praise.—Clinton Democrat, September 13.

Dear Sirs:—Yours of the 10th has been received. You ask me to send you a trial quantity of your Raw Bone Super Phosphate. I applied it to wheat last fall at the rate of three hundred pounds per acre, and the result was that the wheat where the phosphate was put, much more than the rest of the field, and HEAVY GRAIN, although not so much STRAW as on the other portion of the field. The effect it produced was very manifest, and I am sure that you will find it to be a most valuable fertilizer, and therefore I can recommend it as a fertilizer, intending to use it on my own wheat this fall.  
Very respectfully, yours,  
THOMAS M. CARLTON.
